

Brooklin Mill Montessori School Summer Camp 2011

July 4 – 8: Crazy Concoctions

Let's welcome summer with some wacky concoctions and fizzy fun! We will make silly slime, penny polish, pinwheel cookies, and play clay this week. Compete in the cotton ball races and try your hand at water balloon yo-yos. Join our **Crock-a-Doodle** pottery workshop on Tuesday to create a special piece of pottery to mark the beginning of summer fun and new friendships.

July 11 - 15: Under the Sea

This week we will explore ocean life and make an edible ocean! Enjoy the adventures of the *Tickly Octopus*, *One Tiny Turtle*, and others as we learn about creatures of the deep. Participate in our crab walk races, water sponge relay, and beach ball games. We will also create some beautiful sea creature art.

July 18 – 22: Folklore & Fairy Tales

Join us for some classic and mixed-up fairy tales like the *Little Ren Hen Makes a Pizza*, and *Goldilocks & the Three Baboons*. We will make gingerbread cookies, oatmeal bears, and sparkly dragon pictures. Are you ready for the *Mermaid Races* and games of *What Time is it Mr. Wolf?* On Thursday, we will tour **Casa Loma's** secret passages on a treasure hunt for Lady Pellatt's missing jewels.

July 25 – 29: Where the Wild Things Are

Bring your imagination and sense of adventure as we go exploring this week! We'll make animal skin rubbings, marble paint zebras, and handprint a moose. Develop your listening skills with games like animal sound lotto, *Duck-Duck-Moose*, and an interactive screening of *Where the Wild Things Are*.

Aug. 1 – 5: Bookworms

Books can entertain, educate, and inspire. We've selected some of our favourite stories like *Something from Nothing*, *Green Eggs & Ham*, and *Stone Soup*. These stories will inspire our lessons, games, and art projects this week. *Please Note: There is no Camp on Monday for the Civic Holiday.*

Aug. 8 – 12: Fun & Games

Challenge your senses and reflexes with parachute games, scavenger hunts, musical chairs, and blindfold games this week. We'll make edible necklaces (patterning) and 'pinkalicious' cupcakes (measuring)! On Wednesday afternoon, we'll visit **Kids Zone** indoor play centre for some active fun.

Aug. 15 – 19: Dazzling Dinosaurs

Calling all palaeontologists to study the fossils, dinosaur footprints, and prehistoric eggs we have uncovered. We will study dinosaur timelines, lifecycles, and extinction. Join our archaeological dig, make fossil rubbings, and paint a dinosaur mural this week.

Aug. 22 – 26: Beautiful Bugs

Turn over a new leaf (or rock) on our *Big Bug Search* as we learn about insects and their lifecycles. We will be making stained-glass butterflies, finger-paint bugs, and 'bug' toppings for ice cream sundaes. The experts from Mad Science will host an interactive bug workshop on Thursday morning. *Summer Camp ends this week and we look forward to seeing everyone when School starts again on Sept. 6th!*
